

Il subwoofer **HDB 10** fornisce bassi molto profondi e ben controllati, con elevata dinamica e distorsione ridottissima. Il cono in polipropilene è rigido, leggero ed impermeabile. La bobina mobile multi strato è avvolta su un supporto rinforzato con resine particolarmente resistenti al calore: questa tecnologia assicura una elevata tenuta in potenza e notevoli escursioni, lineari e molto veloci.

*The **HDB 10** subwoofer supplies deep and properly controlled basses, with high dynamics and very low distortion. The cone is stiff, light and waterproof. The voice coil is a multi-layer winding on a textile former treated with high temperature resistant resins: this peculiar technology gives huge linear excursion with the fastest acceleration.*

## HDB 10

### bass reflex subwoofer

---

500 watt max power

---

250 watt nominal power

---

80 ÷ 250 watt suggested amplifier

---

35 ÷ 250 hertz frequency range

---

90 dB (2.83 V/1 m) sensitivity

---

4 ohm nominal impedance

---

263 mm loudspeaker diameter

---

50 mm voice coil diameter

---

butyl rubber surround

---

360 x 305 x 307 mm box dimensions

---

8.8 Kg net weight
