Measured from left to right.

Pioneer Avic D3

We advice to use the following positions.
Other positions are also possible.

Use position 1 marked with a cross.
Use position 10 & 12 marked with an arrow.
Measured from left to right.

* Mount the plates.

Use a plastic wig to loosen the panel at the location of the arrows.

Remove the two screws at the location of the arrows. Now you can gently remove the panel.

Loosen the screws at the location of the arrows. Remove the original radio.

Place the 2 - Din metal bracket.

Place the headunit and connect all the wiring. Gently replace all the panels in reverse order.

Connect all of the needed wiring harnesses and check all the connections carefully.
