Pioneer Navigation

Double DIN Kit contents:

- (1) Facia Plate
- (2) Metal Brackets
- (3) Fixing Screws

Installation Manual Double DIN Kit

VW Golf V only:

Pull up the aircone unit (fixed by clip)
Remove two Torx (TX20) screws
(see arrows) which become visible.

5. Push the Pioneer Double DIN head unit into the fascia plate and fix the sides of the head unit with 2 screws on each side.

1. Remove the original trim frame, surrounding the radio (fixed by clips).

2. Remove the 4 Torx (TX20) screws (These screws will be used again later).

Remove the OEM head unit.

6. Connect all wires and fix the Pioneer Double DIN head unit with original Torx (TX20) screws
7. Reinstall everything in reverse order to finish installation.

All installation work must be performed by a qualified professional installer only.
The manufacturer / dealer is not liable for any kind of incidental or indirect damages.
