Installation Manual Double DIN Kit

In the picture the original dashboard. Carefully unclip the original panel.

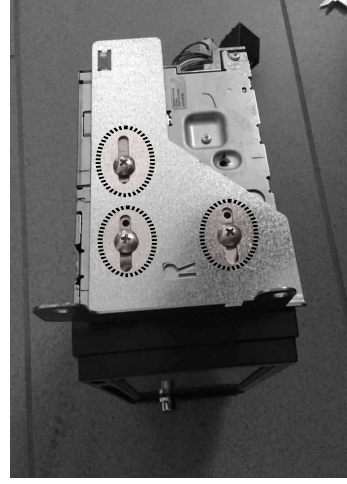

Before to place the AFT unit into the housing, cut and remove the two pivots per side, as shown in the picture.

Remove the OEM head unit by unscrewing the four screws circled.

Connect all cables, insert the AFT unit into the housing and fix it with the screws; verify the proper functioning of the system, including the touch buttons on the fascia plate.

Take the left and right brackets and mount them on the AFT unit using the screws supplied.

Mount the supplied fascia plate on the dashboard.
The image shows the final result.
