Duo Cinema Pro
Professional Automotive Rear Seat Entertainment System

Regulatory Statements

FCC Statement

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

• Reorient or relocate the receiving antenna.

• Increase the separation between the equipment and receiver.

• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

• Consult the dealer or an experienced radio/TV technician for help.

CE Compliance Statement

This device meets the EU requirements (1999/5/EC) on the limitation of exposure of the general public to electromagnetic fields by way of health protection.

WEEE Compliance Statement

This symbol on the product or on the packaging indicates that this can not be disposed of as household waste. You must dispose of your waste equipment and/or battery by handing it over to the applicable take-back scheme for the recycling of electronic equipment and/or battery. For more information please contact your local household waste disposal office.

Safety Instructions

Read through this manual carefully and observe the following safety instructions before operating this device.

• Use only the car power cable and accessories supplied by dealer. Use of unauthorized accessories may void the warranty.

• Do not install near any heat sources such as radiators, heat registers, stoves, or other equipment (including amplifiers) that produce heat.

• Keep this device away from water, drinks, or all types of liquids.

• Do not drop or apply excessive force to this device.

• Disconnect this device from the power supply when not in use.

• It is forbidden by law to duplicate, broadcast, play in public, or rent copyrighted material without permission.

• Do not use alcohol based products to clean your device. Clean only with dry cloth. Always disconnect this device from the power source before cleaning.

• Refer all servicing to authorized repair centres only. Do not attempt to repair this device yourself. Doing so may result in electric shock and will void the warranty.

• Keep this manual in a convenient place for future reference.

SPECIAL NOTE REGARDING USE OF THIS DEVICE IN A VEHICLE

• We strongly advise against the **driver** of a vehicle using this device, whilst moving.

• Most countries and states have laws which prohibit or severely restrict the use of this device in vehicles while driving, where the **driver** can see the screen. Please adhere to these laws.

• Do not leave this device in places where the temperature is extremely low (about -10ºC or lower) or extremely high (about 50ºC or higher), such as inside the passenger cabin or trunk in midsummer.

• Always switch the engine on before connecting power via the car power cable.

• Always disconnect the power from this device before switching off the engine.

Functions Overview

IR Headphones button
Switch the IR headphones channel.

Function button
Access the Function menu.

Power button
Turn this device on/off.

Setup button
Access the Setup menu.

Source button
Switch the input source.

Navigation buttons
- Navigate through menus and choose an item.
- ⏮/⏭: go to previous or next chapter/track or scene during playback.
- ⏪/⏩: scan forward/ backward at 2x, 4x, 8x, 16x, or 32x speed.

OK button
Confirm the selection or enter the submenu.

Play/Pause button
Play or pause playback.

Stop button
Stop playback.

Virtual Number button
Bring up the number keyboard.

Volume (Down) button
Decrease the volume level.

Mute button
Enable/Disable the mute function.

Volume (Up) button
Increase the volume level.

Replacing the Battery

1 Press firmly the latch and pull out the battery holder.
2 Remove the old battery and insert a new lithium coin battery (CR2025) into the battery holder with the positive side (+) facing up.
3 Install the battery holder back into its slot.
Note:
♦ *Remove the battery from the remote control when not in use for extended periods of time to prevent possible battery leakage.*

Getting Started

Installing Cinema Pro in Vehicle

This device is specifically designed to be mounted behind the driver and/or passenger seat(s).

1 Remove the headrest(s) and carefully route the cable(s).

<u>**For Uno Cinema Pro**</u>

Route the T-cable into the hole of the pole on the seat.
For Duo Cinema Pro

Route the T-cable 2 and T-cable 3 into the holes of the poles on each side of the seat. Then from the bottom of the seat, connect both ends of the T-cable 2 and T-cable 3 to the T-cable 1 connectors.
2 Replace the headrest(s) into place.

3 Remove the screws to release both locking latches on the stanchion mount.
4 Position the bracket on the bars of the headrest. Fasten the screws on both locking latches to fix the bracket firmly on the bars.
5 Connect the player with the AV/Power cable (one end of the car power cable) as shown in the following illustration.
6 Slide the mount slot of the player into the backplate of the stanchion mount fully until it clicks into place.
7 Adjust the player to the desired viewing angle.
Note:

♦ *To remove the player from the stanchion mount, pull and hold the release latch upwards and then slide the player off to disengage the connection.*
Basic Connection

For proper connection method, refer to the illustration below.
Cigarette Charger

Turning the Power On/Off

Make sure the cigarette charger is properly connected to the cigarette lighter socket of your vehicle.

Turn the Power On

If the *Auto Power* function is enabled, this device will automatically turn on when the vehicle engine starts up. Otherwise, press the ⏻ button to manually turn this device on.
Note:

♦ *To enable the Auto Power function, refer to "Auto Power Menu" on page 30.*

Turn the Power Off

Press and hold the ⏻ button for at least 2 seconds to turn this device off.
Note:

♦ *You can also turn off this device by touching the ⏻ key on the player.*

Making Connection

This section guides you on how to insert a DVD disc and connect your Cinema Pro to an external device.

Note:

♦ *Do not unplug the USB flash drive or disconnect the cable connection during the file playback.*

Insert the DVD Disc

1 On the player, press the **Open** button and carefully open the disc cover.
2 Place the disc in the compartment with the label facing up. Make sure that it is completely seated in the indent.
3 Close the disc cover by gently pressing until it clicks into place.

Connect to HDMI Input Source

You can use this device to play your favorite multimedia content (videos, pictures, and music) from your portable device (i.e. smartphone or tablet).

1 Connect one end of the HDMI cable to the HDMI1/HDMI2 port of the player.

2 Connect the other end of the HDMI cable to the HDMI port of the portable device.
Insert USB Flash Drive

You can also use this device to play your files stored in the USB flash drive. Simply plug in the USB flash drive to the USB port of the player.
Note:

♦ *To copy your favorite multimedia files, plug in the USB flash drive into your computer USB port and transfer the files to the root directory of the USB flash drive.*

Connect Headphones

Cinema Pro is equipped with built-in speakers. However, you may also use a set of headphones for personal listening. To use headphones, just plug in your headphone cable into the headphone jack of the player.

With the built-in IR transmitter, you can use wireless headphones. When the IR headphone is connected to the player, you can select the channel your prefer by simply pressing the 🎧 button on the remote control.

Press the 🎧 button repeatedly to toggle the IR headphones channel.

Channel A ⟶ **Channel B** ⟶ **Off**
Note:

♦ *When the headphones are connected, the speakers of Cinema Pro will be muted.*

♦ *When the IR headphones are connected, the built-in speakers are not muted. To adjust the volume level of the speakers, do the following:*

⇨ *On the player, you can adjust the volume level by touching the 🔊 or 🔊 key on the device or pressing the volume button (🔊 or 🔊) on the remote control. To mute the speakers, press the 🔇 button on the remote control.*

♦ *To avoid hearing damage, it is highly recommended to set the volume level to its minimum level first before plugging in the headphones.*

Monitor Sharing (Duo Cinema Pro only)

With this function, you can configure both players to play the same media content simultaneously.

1 Select the player that you want to be the primary screen. Then press the ⊟ button.

2 Press the ⏮ or ⏭ button to select 🔲 (*Monitor Sharing*).
3 Press the (OK) button to confirm the selection. Both players will display the same screen.
Screen Mirroring With Your Smartphone

With this function, you can mirror the content from your Android or iOS portable device (i.e. smartphone or tablet) to your player wirelessly.

1 Press the ⊕ button.

2 Press the ⏮ or ⏭ button to select ⬛ (*Screen Mirroring*).
3 Press the ⊙ button to confirm the selection. Your player is now ready for connection.

ID: NEXTBASE 685
IP: 192.168.59.254
PBC / pin code:15051691

4 On your smartphone, enable the Wi-Fi function and select your player (i.e. NEXTBASE XXX) from the network list.
Android device   **iOS device**

5 Enable the "Screen Mirroring" function. Then select your player (i.e. NEXTBASE XXX) from the device list. Once connected, your smartphone display will be mirrored on the screen.
Note:

♦ *The available "Screen Mirroring" function may vary depending on the device UI or its operating system.*
Android device   **iOS device**

Configuring the Settings

General Operations

Switch the Input Source

By default, this device is in DVD mode when it is turned on. To switch the input source, perform the following:

1 Press the ⊕ button.

DVD
USB
HDMI1
HDMI2
Monitor Sharing
Screen Mirroring

2 Press the ⏮ or ⏭ button to select the desired input source.

3 Press the ⊙κ button to confirm the selection.

Note:

♦ *You can also switch the input source by touching the ⊡ key on the player. Touch the ⊡ key repeatedly to toggle the input source. Touch the ▶❙❙ key to confirm the selection.*

♦ *If there is no signal detected, a "No Signal" message will appear on the screen.*

Media Playback

Selecting File (USB input only)

Make sure you have plugged in a USB flash drive on the player.

1 Press the (⏮) or (⏭) button to select the desired file.

```
